connection
with your
health care
needs and
our expertise!*

OCCUPATIONAL THERAPY

Because participation in self-care and activities of daily living are essential to health and well-being, our therapists work to enhance safety and functional mobility that may be lost or impaired as a result of a disease, injury or following surgery. The Occupational Therapist's personalized treatment plans include:

- Instruction in conserving energy, simplifying work and joint protection
- Daily living skills
- ADL compensatory technique training
- Muscle re-education
- Perceptual motor training
- Fine motor coordination
- Orthotics/splinting
- Adaptive equipment fabrication and training
- Reality orientation

SPEECH THERAPY

Whether your patients suffer from speech, communication, or swallowing disorders, our therapists work to improve all aspects of communication and the oral-motor skills needed for safe swallowing. Personalized treatments include:

- Voice disorder treatment
- Dysphagia treatment
- Non-oral
- Aural rehabilitation
- Speech articulation disorder treatment
- Language disorder treatment communication
