needs and
our expertise!*

SKILLED NURSING SERVICES

Our Nurses provide the clinical and technical expertise to meet your health care needs. They coordinate all services, communicate regularly with the referring physician and other disciplines, as well as, keep up with current technologies, procedures, and protocols, including:

- Comprehensive physical assessments
- Disease management/education
- Venipunctures and other lab work
- Wound care/education
- Diabetic care/teaching
- Ostomy care/teaching
- Pain management
- Diet instruction
- Medication management/education
- Catheter management
- Injections

PHYSICAL THERAPY

Our licensed and experienced Physical Therapists provide evaluation and treatment for our patients with various neurological, muscular or bone disorders that limit functional mobility. Following the evaluation, the physical therapists utilize a variety of treatment techniques, including:

- Therapeutic exercises
- Transfer and walking training
- Establish/upgrade home program
- Gait training
- Ultra-sound/pain management
- Muscle re-education
- Prosthetic training
- Electro-therapy
- Postural drainage/Pulmonary Toileting
- Exercise programs for strength, endurance, coordination and balance
- Recommendations for assistive devices and home modifications to improve safety
- Family or Caregiver training to reinforce and enhance treatment benefits
